DIGI ID

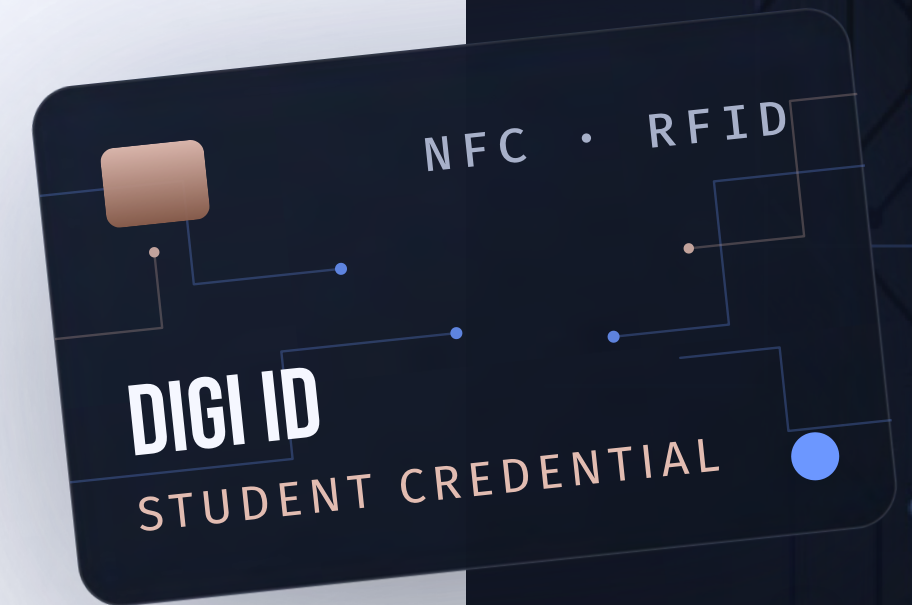

One Card. A Smarter Campus, Safer Children.

Next-Generation Hybrid NFC & RFID Campus Ecosystem

ACADEMICS

TRANSIT

SECURITY

ELYON IOT

THE ECOSYSTEM - Seven systems on one credential

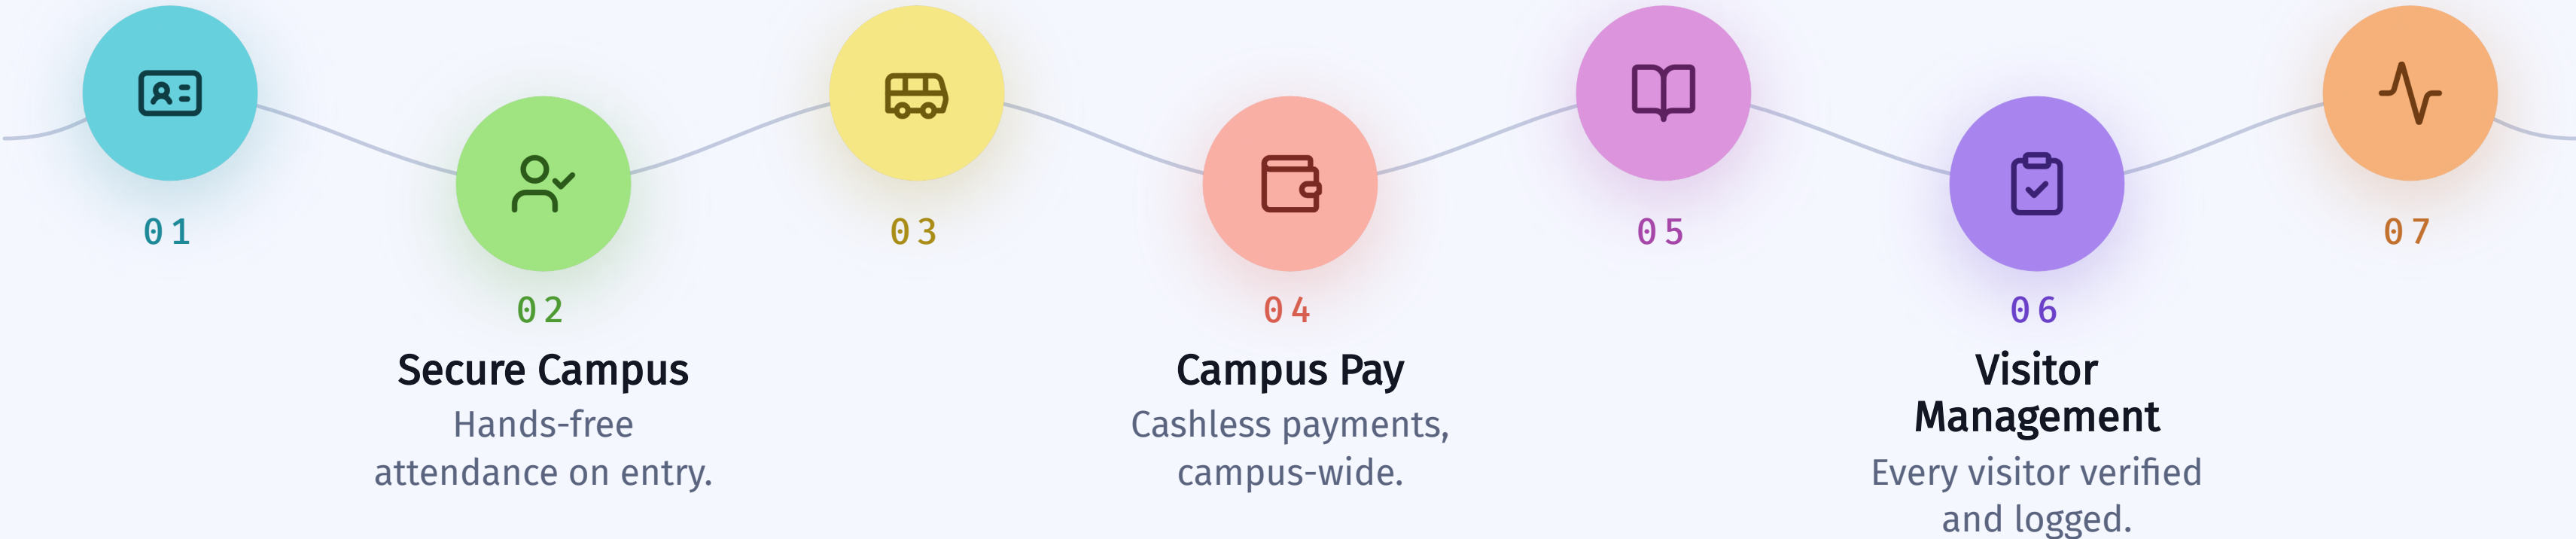

ONE CARD. A SMARTER CAMPUS. SAFER CHILDREN

Academic Passport
A verified identity, at a glance.

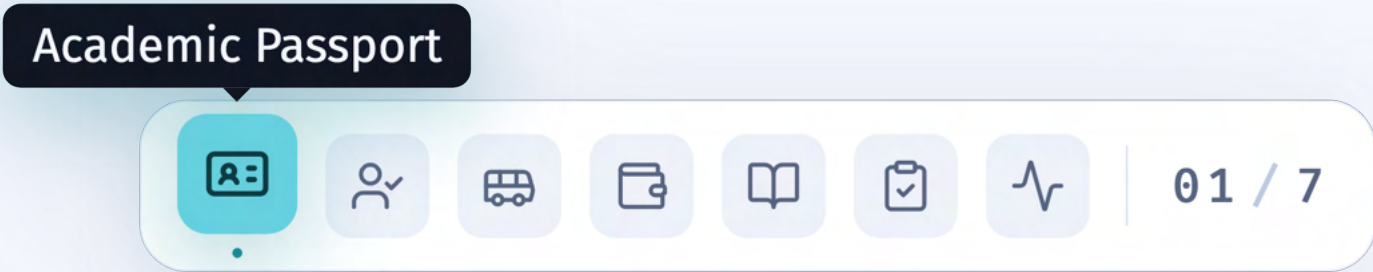

Safe Transit
Boarding logged, parents alerted.

Digi Library
Issue and return, register-free.

Auto Sentinel
System health, monitored 24/7.

 + SecureVision – optional verification layer

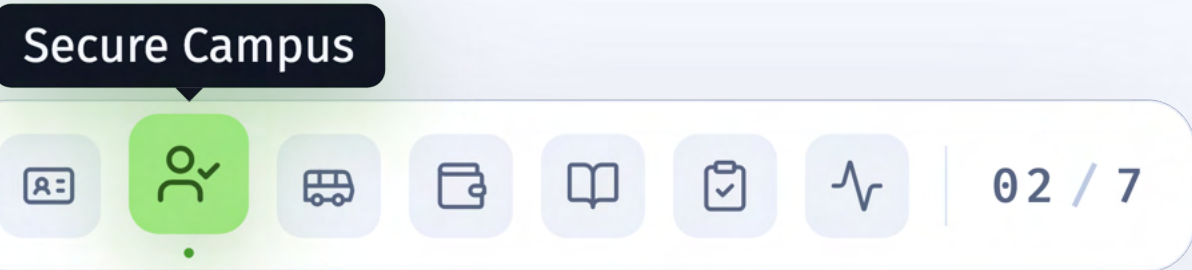

ACADEMIC PASSPORT

REQUIRES • NFC READER

One tap reveals a student's full identity — records, achievements, emergency details — on a card that lasts from admission to alumni.

01 • THE PAIN	02 • WITH DIGIID	03 • THE RESULT
A NAME, NOTHING MORE Conventional cards prove a name and nothing more — records scattered across systems.	ONE VERIFIED CARD Two secure read-modes on a single credential — public / emergency and staff-authenticated.	ONE LIFELONG CREDENTIAL From admission to alumni — instant, error-free verification, every time.

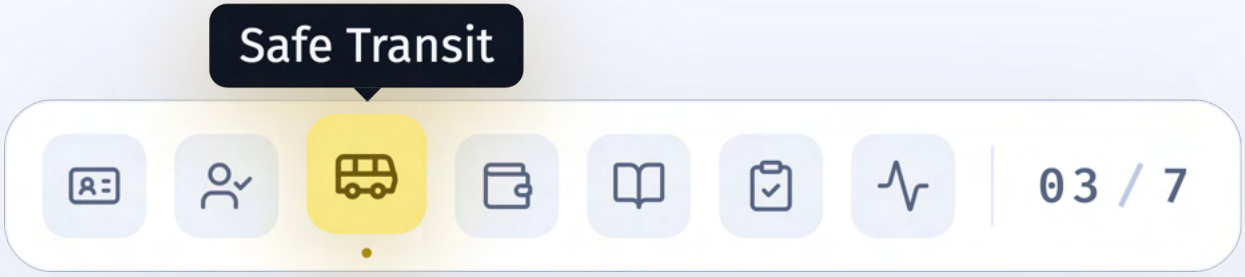

SECURE CAMPUS

REQUIRES • RFID READERS (IN / OUT)

Students and staff are marked present automatically the moment they enter — no roll-call, no queue.

01 • THE PAIN	02 • WITH DIGIID	03 • THE RESULT
ROLL-CALLS EAT TIME Manual attendance wastes lesson time and invites errors and proxies.	AUTOMATIC RFID CAPTURE Everyone is marked present the instant they pass the entry reader.	ERROR-FREE ATTENDANCE Accurate, instant registers — synced across the campus in real time.

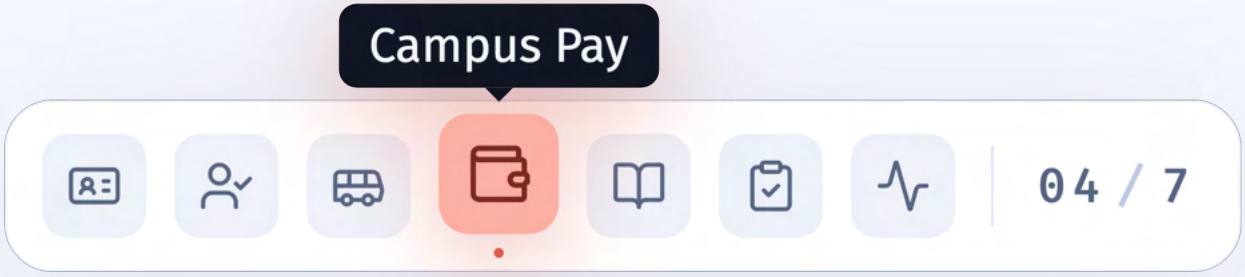

SAFE TRANSIT

REQUIRES • NFC DEVICE ON BUS

Real-time tap-in and tap-out on the bus, with instant alerts to parents at every boarding and exit.

01 • THE PAIN	02 • WITH DIGIID	03 • THE RESULT
NO BOARDING RECORD Parents are left anxious with no proof their child boarded or arrived.	TAP-IN, TAP-OUT, LOGGED Every boarding and exit is captured and pushed to parents instantly.	PEACE OF MIND, EVERY TRIP Full accountability for each journey, with optional live GPS tracking.

CAMPUS PAY

REQUIRES • NFC POS

Tap to pay anywhere on campus — no cash to carry, lose, or misplace, and no queues.

01 • THE PAIN	02 • WITH DIGIID	03 • THE RESULT
CASH GOES MISSING Lost or misused cash, and no visibility into what students actually spend.	A CLOSED-LOOP WALLET Parents top up remotely and see every tap tracked in real time.	NO CASH. FULL OVERSIGHT. Faster service, no cash risk, and complete spend visibility for parents.

USES — CASHLESS PAYMENTS • REMOTE TOP-UP • SPEND TRACKING

DIGI LIBRARY

REQUIRES • NFC DESK READER

Issue and return books in a single tap — no paper registers, no manual lookups.

01 • THE PAIN	02 • WITH DIGIID	03 • THE RESULT
REGISTERS SLOW IT DOWN Manual logging is slow and quietly loses track of borrowed stock.	ONE-TAP ISSUE & RETURN Every loan and return is logged automatically against the student card.	FASTER, FEWER LOSSES Quicker circulation, accurate inventory, and hours saved every week.

USES — ISSUE / RETURN • AUTO INVENTORY LOGGING

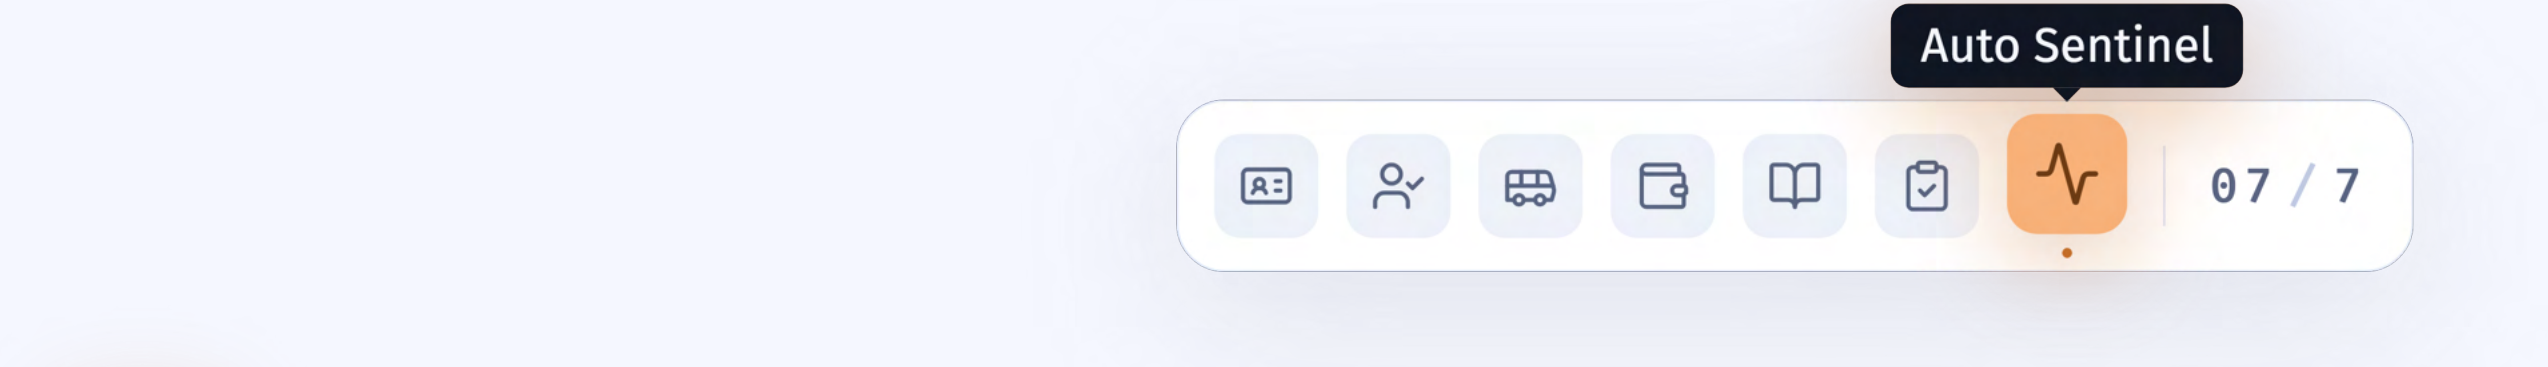

VISITOR MANAGEMENT

REQUIRES • REGISTRATION TABLET

Every visitor is registered, verified, and tracked from the gate through to exit.

01 • THE PAIN	02 • WITH DIGIID	03 • THE RESULT
ANYONE, UNVERIFIED Paper logbooks leave visitors unverified and impossible to audit later.	DIGITAL CHECK-IN & TRACKING Each visitor is registered, ID-verified, and tracked gate to exit.	A TAMPER-PROOF RECORD A clear, lasting audit trail of who came, when, and why.

AUTO SENTINEL

SOFTWARE ONLY

An autonomous engine continuously monitoring the health of all campus hardware and software.

01 • THE PAIN	02 • WITH DIGIID	03 • THE RESULT
FOUND TOO LATE Hardware and software faults surface only once they have caused downtime.	ALWAYS-ON MONITORING An autonomous engine watches every device and service around the clock.	DEPENDABLE UPTIME Faults are flagged instantly, so they are fixed before anyone notices.

• OPTIONAL VERIFICATION LAYER

SECURE VISION

Face capture confirms *who* actually tapped — at the gate and on the bus.

NFC / RFID

DELIVERS SPEED

One fast tap to open a gate, board a bus, or mark attendance.

- ✓ No app or PIN — the card is the key.
- ✓ Instant, hands-free reads at any reader.

SECURE VISION

DELIVERS PROOF

Face capture ties that tap to the real person behind the card.

- ✓ Proxy-proof — stops shared or borrowed cards.
- ✓ Optional layer, added only where it's needed.

TWO JOBS, NOT ONE DONE TWICE

Genuine, proxy-proof integrity.

ONE CARD. A SMARTER CAMPUS. SAFER CHILDREN.
